PROBLEMS ENCOUNTERED AND RESOURCES REQUIRED:

The change from paper work to paperless work is not very easy task. Since many years the employees have engaged themselves in traditional approach of working through paper. The working from paper to paperless needs change in mind set of employees. Moreover, it is the matter of persuasion and training. It is taking time to change the mind-set of employees, with the passage of time, after learning the simplicity and effectiveness of new methods gradually they shifted to new methods.

Now almost all employees in the college are able to implement several aspects of engagement successfully.
