SUGGESTIONS FOR IMPROVEMENTS *

Thank you for this feedback initiative for the better improvement. Whatever facility and knowledge shared by the faculty is up to the mark but as per my point of view need to give more field experience to the students for the better understanding. As a college students they have to understand what society needs from the one agriculturist and what is more suitable for the farmers. How the market is reacting along with the working style. So overall I just want to share is need to give them more field experience to become good agriculturist, otherwise staff, facility, faculty, education style, culture everything is up to the mark.

Thank you
Best Regards,
Mukesh Chaudhari
