Event Report

Name of the Program: Stress Management Skills

Date: 12-08-2019 to 14-08-2019 (TIME: 11:00AM to 12:00PM)

Number of Participants: 28

Organized by: Department of Agriculture, DCAST, Dehradun

Description: The program was organized to maintain a healthier lifestyle and to prepare you to cope with the stress of everyday living. Stress management is an acquired skill you can learn and use to make your life a bit less nerve-wracking and more enjoyable. Students spend most of their time in college. Due to continuous mental work, peer pressure and family problems mind becomes stressful. Students often recognize that they need to relieve stress. However, all the activities and responsibilities that fill a student's schedule sometimes make it difficult to find the time to try new stress relievers to help dissipate that stress. All the tips given seemed very useful and efficient to reduce the stress. There were discussions in between and at the end of the presentation in which the doubts and queries of participants were resolved.
